## The Ultimate Indoor Soccer Experience!

**Step inside and you know immediately: this is unlike any indoor soccer venue you've ever experienced.**

From the custom red turf field. To the super-high roof that keeps the ball in play for real soccer action of the highest caliber. A sight and sound experience of music, strobe lights and video monitors to keep you informed and entertained. It's an incredible arena where even the youngest player feels like a world class superstar.

At *Teaneck Armory* you'll find seating for 1,500 that treats spectators to the comfort they deserve. Games that run on-time, with professional referees and total effort to provide your team with a first-class experience.

For over 20 years, this standard of excellence has attracted top teams from throughout NY, NJ, CT, PA — and beyond—to a playing experience unmatched by any gym, warehouse or bubble.

### The Soccer Coliseum difference: More touches = More skill

Top coaches around the world know it — and build their programs around it. Small-sided play builds skill in so many ways. Players learn to deal with pressure in tight quarters and benefit exponentially with over 300% more touches, passes, shots, 1v1 confrontations and game-related combinations.

We've custom designed our turf, our ball, and our rules to deliver the best developmental and most exciting soccer experience. The best of futsal and Dutch 4v4 skill-building in a format that promotes proper technique and tactical awareness — that's immediately transferable to the outdoor pitch.

A cornerstone of soccer development in the world's top programs and now an integral part of the US national academy program, discover the dynamic development these small-sided games deliver.

**Join us this winter!**

**No Walls, No Boards, No Bad Habits!**

Just real soccer that promotes proper technique and awareness that transitions immediately to the outdoor game!

## Soccer is a game, and you learn by playing competitive games

This is what youth soccer scholars are coming to realize. In a recent European in-depth analysis on the question “Do the international elite academies produce better players”, the result was an astounding “No, better players were created in environments where youngsters just played competitive games on a regular basis”. Since 80% of a player’s development happens by age 12, it’s imperative that they accumulate a lot of game mileage by that time. But the type of game is important, and that’s why **The Soccer Coliseum** custom designed the 5v5 leagues and tournaments to deliver the essential foundation on which a successful career can be built.
